## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas L. Tschida (Reg. No. 28,481) on 11/17/06.

The application has been amended as follows:

**Cancel claims 1, 3-4, 6, and 22 without prejudice.**

Claim 17, line 4, change "a substrate" to - - **a cylindrical substrate** - -.

Claim 17, line 5, change "a plurality of concentric layers" to - - **a plurality of layers** - -.

Claim 17, line 6, change "first and second conductive concentric layers" to - - **first and second elongated annular layers** - -.

Claim 18, line 2, change "substrate comprises a cylindrical conductive member concentrically mounted to" to - - **substrate is mounted to** - -.

Claim 20, line 2, change "substrate comprises a tabular member concentrically mounted to" to - - **substrate is hollow and is mounted to** - -.

For claim 22: the claim should be amended as below:

**(current amended)** A connector for high frequency signal comprising:

(a) a coaxial connector body having a housing adapted for interconnection with input and output conductors; and

b) an electrically conductive core piece supported within said housing and having a plurality of concentric layers including a first cylindrical conductive layer defining a resistor and a first plate of a capacitor, a cylindrical dielectric layer overlying said first conductive layer, and a second cylindrical conductive layer overlying said dielectric layer and defining a second plate of said capacitor, and wherein said core piece exhibits an impedance characteristic that matches that of said input and output conductors, a and wherein said core piece comprises a hollow cylindrical conductive substrate containing said first and second conductive layers and said dielectric layer and wherein said core piece is concentrically mounted to adjacent conductors connected to said input and output conductors.

Claim 23, line 1, change "in claim 22" to - - in claim 21 - -.

***Allowable Subject Matter***

2. Claims 11-12, 17-21, and 23 allowed (renumber claims are 1-8).

The following is an examiner's statement of reasons for allowance:

In response to remarks and claimed amendment made by Applicant's Amendment filed on 09/19/06, and further telephone interview on 11/17/06 to discuss claims 17, and 21, the applicant agrees to amend claims 17 and 21 to overcome the prior arts. Therefore, the arguments are persuasive. The amendment claims (see examiner's amendment as above) have been considered and upon conclusion of a

comprehensive search of the prior arts, the Office indicates that the claims, as amended, are allow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Dinh whose telephone number is 571-272-1929. The examiner can normally be reached on M-F.
